

EHS 2025-2026 9th Grade Scheduling Worksheet

Parents/Guardians are encouraged to help their student(s) complete this worksheet prior to course registration day.

Students may elect to bring this worksheet to school on course registration day to share with teachers as they make their recommendations for next year's courses.

When completing this scheduling worksheet for next year's courses, please reference the following information:

1. Students are required to take a minimum of 5.25 credits each school year. **However, ninth grade students must register for a minimum 7 credits per year, excluding alternates.** Students may not exceed 8 credits in a year.
2. Students entering 9th grade must register for an **English** course, a **Social Studies** course, a **Math** course, a **Science** course, a **Health A**, and a **Wellness/Fitness** course. These requirements vary slightly for students attending LCTI in 9th grade.
3. Students must register for and successfully complete a **Family & Consumer Science (FCS)** course and a **STEM** course prior to graduation. Reference the Graduation Requirements page in the Program of Studies for a list of possible courses to fulfill this requirement.
4. Consider and list alternate course selections in the "Alternate" row at the bottom of this scheduling worksheet. Alternate courses will be used in the event that first choice course(s) cannot be scheduled.

Each student will be provided with a list of scheduled courses. Final changes to scheduled courses must be submitted in writing by June 30th, 2025. Please note a change is much more likely to occur while the schedules are still being developed during the school year. Once the schedules are developed, it is unlikely a change request will be fulfilled. **PLEASE CONSIDER YOUR SELECTIONS WISELY DURING THE COURSE SELECTION PROCESS.**
